JavaScript (ES6+)	DOM Manipulation	Web Hosting & Deployment
React JS	Bootstrap	Figma
		UI/UX Principles

PROFESSIONAL EXPERIENCE

Shanti Construction - Business Website

- Designed and developed a fully responsive, professional website from scratch to establish a digital portfolio for a local construction business.
- Implemented a clean user interface to effectively showcase the company's services, project gallery, and contact information.
- Integrated a functional contact form and an interactive Google Maps feature to improve client inquiry and accessibility.
- Technologies Used: HTML, CSS, JavaScript.

The SG Finance Show - Podcast & Content Hub

- Built a dynamic and engaging website to serve as a central platform for a finance podcast, hosting episodes and show notes.
- Engineered a mobile-first, responsive layout to ensure a seamless listening experience for users across all devices, including desktops, tablets, and smartphones.
- Structured the site architecture to promote content discovery and audience interaction, creating a hub for the show's community.
- Technologies Used: HTML, CSS, JavaScript.
